EDUCATION

University of British Columbia (UBC) | Vancouver, BC — Sep. 2025 – Apr. 2030
Bachelor of Applied Science – Electrical Engineering

- Relevant Courses: ELEC 201 - Circuit Analysis I, CPEN 211 - Computing Systems I, CPSC 259 - Data Structures and Algorithms for Electrical Engineers

TECHNICAL SKILLS

Coding: C, Arduino/C++, MATLAB, Assembly, Python/Jupyter, C#, HTML/CSS/JS, Java
Tools: SOLIDWORKS, Blender, Quartus Prime, Verilog, Hand tools, Soldering, Git, VS Code, SSH/Linux
Microsoft Office: Word, Excel, PowerPoint (all proficient)

TECHNICAL PROJECTS

Deep Sea Recovery Claw | UBC Engineering — Jan. 2026 – Mar. 2026

- Programmed an Arduino microcontroller with ultrasonic sensors for real-time object detection.
- Conducted formal risk assessment across subsystems, prioritizing failure modes by severity × likelihood.
- Rapid-prototyped sensor-mechanical integration to deliver a functional device on a tight timeline.

VEX Robotics | William Lyon Mackenzie C.I. — Apr. 2025 – Jun. 2025

- Designed and built the drivetrain and lift subsystems, powering the robot's mobility and scoring.
- Programmed and piloted the robot in competition matches, blending build and real-time operation.
- Collaborated with the team to test, troubleshoot, and iterate on designs under competition constraints.

Sumobot | William Lyon Mackenzie C.I. — Feb. 2025 – Apr. 2025

- Designed the robot chassis in Blender, engineering a front ramp to neutralize opponents' traction.
- Built the physical chassis using hand tools and soldered the control system's electrical connections.
- Co-developed a sensor-based opponent detection system in Arduino/C++ for autonomous tracking.

EXPERIENCE

Project Metropolis | Toronto, Ontario — Nov. 2023 – Jun. 2025
Student Web and Game Development Team Member

- Designed, developed, and shipped multiple web games (e.g. puzzle/racing) using JavaScript, HTML.
- Collaborated cross-functionally with artists to define asset requirements and balance workloads.

Engineering Club (MEC)|Toronto, Ontario — Sep. 2024 – Jun. 2025
VP, Head Engineer

- Led engineering projects and mentored club members as Vice President and Head Engineer.
- Coordinated with other clubs and staff to schedule and organize collaboration events.

AWARDS

Admission Scholarship – PEO Willowdale-Thornhill Chapter | Professional Engineers Ontario (PEO) — 2025

- One of 36 provincial recipients (one per PEO chapter), selected on academics, essays, and references.

11th Place — Online Game Jam | 11th of 118 submissions — 2024
1st Place — High School Game Jam | 1st of 9 teams — 2023

INTERESTS & ACTIVITIES

- Fitness: Gym, Bouldering, Running
- Music: Cello (RCM Level 10 with First Class Honours), Strings Orchestra (First Seat Cello for 3-4 Years)
